1st. That said property shall be used for residence purposes only and that there shall not be more than two private residences placed on said described property or maintained thereon at any time, Provided, however, that nothing herein contained, shall operate to prevent the said property being used as a public street, in which event these building restrictions shall not apply.

2nd. That no building or structure pertaining to or for the conduct of any kind of commercial business shall be erected on said property or be allowed thereon and no tenement, lodging house, boarding house, flat, hotel, store or factory shall be erected, placed or maintained on said property.

3rd. That no residence or dwelling shall be placed on said property the cost of which shall be less than \$7500.00.

4th. That all plans of buildings and locations thereof, whether residences, garages, stables or annexes of any kind shall be submitted to and approved by the architect of San Diego Securities Company, a corporation of San Diego, California, before work on such building is begun.

5th. That the front line of any residence or dwelling including porch and piazza, but not including steps, shall be placed on a line not less than 15 feet from the nearest point of the front line of said property, the front line of said property being the boundary line between said property and the street upon which it fronts, and no building or addition or annex to any building shall be placed or erected on said lot nearer the front line thereof than 15 feet. Upon the breach of either or any of the foregoing conditions the title to said property hereby conveyed, and the whole thereof shall become at once divested from the said party of the second part, their survivor, heirs or assigns, and shall revert to and revest in the said party of the first part, its successors and assigns, and the said party

NOTE: Similar conditions and restrictions affecting all of the property hereinafter described, excepting the Southwesterly 70 feet thereof, are contained in the deed from Southern Trust and Commerce Bank, a corporation, to Culmer C. THIS INDENTURE, made as of the 12th day of May, 1926, by and between GREAT WESTERN IMPROVEMENT COMPANY, a corporation, the first party, and CITY OF SAN DIEGO, a municipal corporation, the second party, WITNESSETH:

WHEREAS, the second party is a municipal corporation in the County of San Diego, State of California, and is the owner of a certain water system for the development, impounding and distribution of water for municipal purposes in the City of San Diego, in said State; and

WHEREAS, said second party is, for the purpose of improving its water system and increasing its capacity and facilities for impounding, conserving and distributing water, desirous of putting in an additional water main to pass over and across the lands of the first party, hereinafter described,

NOW, THEREFORE, in consideration of the premises, the first party does hereby grant to the second party, subject to all easements, incumbrances and liens of every kind, nature

and description whatsoever existing against or in respect to said property, and upon the terms, conditions and restrictions hereinafter set forth (each and all of which are hereby declared, and by the acceptance of this Indenture agreed to be, conditions subsequent) the perpetual right and easement to enter upon that certain real property situated in the County of San Diego, State of California, described as follows, to-wit:

That portion of the land conveyed to Great Western Improvement Company by deed dated February 19, 1925, and recorded in Book 1098 at page 9 of Deeds, records of said county, contained within a strip of land of the uniform width of Twenty (20) feet and lying Ten (10) feet on each side of the following described center line, to-wit:

Beginning at a point on the westerly line of said lands conveyed to Great Western Improvement Company, said westerly line being also the easterly line of a parcel of land conveyed to the County of San Diego by deed dated November 16, 1921, and recorded in book 751 at page 241 of Deeds, records of said San Diego County, South 20° 51' West, a distance of 155.0 feet from the true point of beginning described in said deed to the County of San Diego, thence South 38° 52' East a distance of 52.0 feet to a point; thence South 34° 14' East 282.4 feet; thence in a curve tangent to last mentioned line, to the left, having a radius of 572.96 feet a distance of 382.3 feet measured along the arc of said curve, to a point; thence South 72° 28' East a distance of 7.1 feet to a point; thence in a curve, tangent to last mentioned line, to the left, having a radius of 572.96 feet a distance of 90.5 feet measured along the arc of said curve to a point; thence South 81° 31' East a distance of 268.3 feet to a point; thence South 79° 24' East a distance of 230 feet more or less to a point on the southerly line of County Highway; excepting from the above described property, however, that portion thereof lying within the boundaries of said County Highway.

for the purpose of making surveys, locating, putting down, constructing, reconstructing, maintaining, operating and repairing a water main and taps thereon, and for such other purposes and uses as are or may become necessary and incidental to the construction, maintenance and operation of said water main.

This grant is made and accepted upon and subject to the following conditions:

That said easement shall be exercised by the second party in such a way that there shall be a minimum of interference with the rights of the first party to use the lands within and immediately adjacent to the right-of-way hereby granted, and so as to do the least damage consistent with good engineering.

That wherever said water main or pipe traverses arable land, it shall be placed beneath the surface of the ground, to a depth of not less than eighteen (18) inches, and covered over so as to leave the best soil on top.

That the second party shall, at the expense of the first party, install one tap on said pipe line or water main, said tap to be not less than two (2) inches in diameter, and shall furnish to the first party water therefrom at the same rate and subject to like conditions, rules and regulations as those fixed and made applicable from time to time to other consumers obtaining supplies of water from said water main. Said two inch tap shall be located at a point selected by the first party between the easterly and westerly boundaries of said land conveyed to Great Western Improvement Company by said deed recorded in book 1098 at page 9 of deeds, and shall be installed either, (1) at the time when said water main is being constructed, or, (2) at any time thereafter on not less than ten days' written request from the first party.

That in the event the second party fails to install and put into operation the said water main, along or across the lands hereinabove described, on or before August 1, 1927, then all rights hereby given shall be at an end and this indenture shall be deemed cancelled, set aside and annulled, and thereafter upon demand the second party will cause to be executed and delivered to the first party an instrument sufficient to clear the record of every lien and cloud created hereby.

That said second party shall be responsible for and hereby agrees to pay all damage that may be caused by the construction, operation, repair and/or maintenance of said water main and taps.

THIS INDENTURE shall bind, apply and inure to the benefit of the successors and assigns of the parties hereto, and a waiver by the first party of any default on the part of the second party shall not constitute nor be considered a waiver of any other or subsequent default as to the same, or any other matter.

IN WITNESS WHEREOF, the first party has caused this indenture to be executed, by its officers thereunto duly authorized, and its corporate seal affixed the day and year first above written.

The Mission Beach Company has heretofore, at its own expense, constructed a bulkhead along the ocean front between the two strips of land hereinabove described. It is recognized by the City of San Diego, in accepting this deed, that it would not be just that any part of the cost of construction of the new bulkhead, to be erected along the hereinabove described property, should be assessed against any of the property lying behind said existing bulkhead. This grant is therefore upon the further condition that if any part of the cost of construction of said bulkhead, to be constructed along the premises hereinabove described, should be assessed upon or against any property lying between the North line of Ventura Place and the South line of San Fernando Place, or the projections of said lines either easterly or westerly, as said streets are shown on that certain map of Mission Beach filed in the office of the County Recorder of the County of San Diego, State of California, on December 14, 1914, and numbered 1651 of the maps in said office, then all the interest derived by the City of San Diego in the above described property under the provisions of this deed shall cease and terminate without notice and the same shall revert to the Mission Beach Company, its successors or assigns.

TO HAVE AND TO HOLD, the above granted and described easement, subject to the conditions hereinabove set forth and the reservations hereinabove created, unto the said grantee, its successors and assigns forever.

IN WITNESS WHEREOF: said corporation has caused this instrument to be executed by its proper officers and its corporate seal affixed this 9th day of October, 1926.
